

Dear registered user of Horizon,

We are excited to announce the launch of our new program, the Smart Study Program.

The Smart Study Program is designed to provide your child with a comprehensive learning experience that will help them prepare effectively for their exams and achieve their academic goals. We understand that education is an important aspect of your child's growth and development, and we want to make sure that we provide you with the best resources and tools to support your child's learning journey.

The program offers a variety of features and resources that are aimed at helping your child succeed. These include recorded classes that your child can access at their own pace and convenience, live master classes where experienced teachers deliver lectures on various subjects and topics, chapter-wise tests to help students assess their understanding of the concepts and topics covered in each chapter, and flashcards that provide a quick and easy way for students to revise important concepts and formulas before an exam.

Additionally, the program also provides practice questions, in-class and WhatsApp doubt-solving, class notes, mentorship, and PTMs. Regular tests and reports are also provided to help you track your child's progress and identify areas that need improvement.

We believe that investing in your child's education is one of the most important things you can do as a parent, and the Smart Study Program provides you with a unique opportunity to do just that. We encourage you to enroll your child in the program and take advantage of the many resources and features it has to offer.

Thank you for choosing Horizon as your learning partner, and we look forward to supporting your child's academic journey.
